decorate: turkey

Outline the cookie in beige icing

Fill in the outline, using just enough icing to fill the cookie and your scribe to even it up

Using brown, outline a flower like shape

Slowly fill in that outline in brown

Pipe orange dots between each brown bump out, the ones on bottom being half the size

Pipe a small triangle for a beak (you can use your scribe to make the corners more crisp)

With brown, pipe two eyes

Above the eyes, pipe a square

Underneath the square, pipe a a horizontal line

With orange, pipe a horizontal line above the brim, on the square of the hat

Your turkey cookie is complete!
